## **DETAILED ACTION**

### ***Election/Restrictions***

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species I – Figures 1-2.

Species II – Figures 3-4.

Species III – Figures 5-7.

Species IV – Figure 8.

Species V – Figure 9.

Species VI – Figure 10.

Species VII – Figure 11.

Species VIII – Figure 12.

Species IX—Figure 13.

Species X – Figure 14.

Species XI – Figure 15.

Species XII – Figures 16-20.

Species XIII – Figure 21.

Species XIV – Figure 22.

Species XV – Figure 23.

Species XVI – Figure 24.

Species XVII – Figures 25-27.

Species XVIII – Figure 28.

Species XIX – Figure 29.

Species XX - Figures 30-31.

Species XXI – Figures 32-35.

Species XXII – Figures 36-37.

Species XXIII – Figure 38.

Species XXIV – Figure 39.

Species XXV – Figure 40.

Species XXVI – Figure 41.

Species XXVII – Figures 42-43(b).

Species XXVIII – Figures 44(a)-(d).

Species XXIX – Figure 45.

Species XXX – Figure 46.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include

Art Unit: 3654

all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

None of the claims correspond to the species above since claims are not specific to one particular embodiment only.

The following claim(s) are generic: Currently there are no generic claims.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: Each species present alternative embodiment of the cable reel, locking mechanism, protective shield or gripping portion. Therefore, unity of invention is lacking.
